For: POSITIVE ELECTRODE ACTIVE MATERIAL FOR NONAQUEOUS
ELECTROLYTE SECONDARY BATTERY AND NONAQUEOUS ELECTROLYTE
SECONDARY BATTERY

RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the August 6, 2007 Election of Species Requirement, Applicants provisionally elect zirconium as a surface element species, with traverse. At least claims 1, 2, 5-8, 11-14, 17, and 18 read on the elected species. At least claim 1 is generic to all species.

Applicants traverse the election of species requirement on the ground that the generic claims are not so broad as to place an undue burden on the Patent Office to search and examine the full scope of the claims. Rather, Applicants respectfully assert that search and examination of the entire application could be conducted without undue burden on the Examiner, thus avoiding delay and expense to Applicants.

Applicants further understand, however, that upon search, examination, and allowance of the elected species, search and examination will continue as to the non-elected species within the scope of the generic claims.

Thus, withdrawal of the Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff
